STANDARD SPECIFICATIONS

CONSTRUCTION

- Welded tank with an extra smooth peened finish ensures easy cleaning.
- Immersion type; sealed construction heating elements with high temperature alloy stainless steel sheath.
- Element design makes cleaning easy.
- Thermostat dial mounted on the front panel.
- Provision for tie-in with fire protection systems.

CONTROLS

- Temperature limit automatically shuts off all power to the heating elements if the fryer temperature exceeds the upper limit.
- Three position switch (OFF/ON/START) for fryer control.
- Two position switch (MELT ON/MELT OFF) for melt cycle control.
- White power ON light.
- Amber temperature light indicates when elements are heating.

OPERATIONS

- Thermostat maintains selected temperature automatically at the selected temperature (between 200°F (93°C) and 375°F (191°C-CE).
- Front 1-1/2" (3.8 cm) drain, for quick draining.
- Select fryer operating mode (on or melt cycle) from the front control switch.

APPROVALS

- CSA Certified (AGA, CGA)
- NSF Listed
- MEA Approved
- UL Listed
